Agile: Jira/Confluence/BitBucket, Visual Studio/TFS/GIT, Microsoft/Teams.
Source code management: GIT, Bitbucket, TFS.
Design: Adobe Photoshop, Adobe Illustrator, Adobe Lightroom, Adobe After Effects, Figma.

Work Experience

Senior Frontend Developer Liviniti Oct. 2024 - Aug. 2025

Worked with a small team to optimize a Vue application to be reusable and scalable as a Senior developer. Implemented improved CSS guidelines using Sass mixins, functions, and CSS variables to make the visual design more componentized. Modernized older code by removing Bootstrap components in favor of faster, Vue-based components. Modified pieces of the Vuetify library to be reusable and scalable within a large Vue application.

UI/UX Developer Talis Clinical, LLC June 2021 - Oct. 2024

Primary frontend developer at a medical software company building application to help doctors and nurses get alerts on changes in vitals and be able to chart changes in patients virtually. Primary responsibilities were all frontend styles of all applications using Vue.js and Bootstrap 5.0. Heavy usage of Sass to keep styles consistent and reusable with a critical eye on design and user experience.

Website Developer New Elevation Jan. 2020 - Dec. 2020

Front end developer for a contracting company, contracted with a retail company running a Hybris website. Prime responsibilities were maintenance and creation of new React components to replace JSP pages.

UI Engineer American Eagle Outfitters Mar. 2014 - Dec. 2019

Developed key parts of the UI for the customer-facing ecommerce site ae.com, primarily for the Checkout team. Created and maintained the core UI component library and style guide based on Bootstrap and handled migration to Ember components. Wrote unit, integration, and acceptance tests to ensure stability of the web application and its components. Served as liaison to the design team to ensure accuracy in style implementation.

Visual Developer Brunner Jan. 2011 - Mar. 2014

I build primarily the front-end of websites using HTML, CSS/CSS3, Javascript/jQuery, HTML5, media queries, etc. I have some experience in lighter back-end functionality and learn more on a daily basis. I have skills building websites using the Umbraco content management system as well as .NET MVC. I also have skills in building flash pieces as well as flash-based banner ads and rich-media banners.
